Diane,

I am trying to send a SAS Export file. As soon as I get it straight I'll send it to you. What operating system are you using?

Best regards,

Bettie

Dear Bettie

unfortunately, we do not run SAS here - can your programmers send this same file as a SAS TRANSPORT file? if not I do have a program that can extract data but its sometimes a bit messy
thanks
Diane

Diane,

This is pretty much how the data from the Pilot TES will look

<<final.sas7bdat>>

With best regards,

Bettie
